## Curtain of Secrecy About U. S. Answer

### SIGNIFICANCE IS ATTACHED TO MARCH'S CALL AT WHITE HOUSE

**President Confers With Chief of Staff, Secretary of Navy Daniels, Secretary of State Lansing and by Cable With Allied Governments. German Chancellor Says New Government Involves New Form of Government For Alsace-Lorraine.**

### MUST DEFEND DEFENDERS, HE SAYS

(By United Press)

Washington, Oct. 23.—While President Wilson conferred today with Chief of Staff March, Secretary of the Navy Daniels, Secretary of State Lansing and by cable with allied governments, the curtain of secrecy continued over the nature of the response to be made to Germany's latest peace advances. Special significance was attached to Gen. March's visit to the white house.

#### People To Ride, Max Says.

Copenhagen, Oct. 23.—"The enemy is at our gates," declared the chancellor Maximilian in addressing the German reichstag.

"Our first and last thought must be for the brave defenders whom we must defend under unjust charges. There are bad elements in every army. With the fundamental will of the people, the army will disown them.

"None can foresee whether the next few weeks will call us to fight on or open the way for peace. There is no doubt we are now equal to the task of either war or peace by carrying out our government program and definitely breaking away from the old system.

The new system of imperial government involves a new government for Alsace-Lorraine. Alsations, appointed by the governor and secretary of state from leaders of the second chamber of the diet, will be members of the provincial government.

"The aim of myself and my colleagues is political authority for the German people. The people long have been in the saddle. Now they are to ride."

Prince Maxmilian declared that President Wilson's answer, might hinder German peace efforts. Until then Germany must be prepared to resist a feast of violence, he declared. The address was evidently delivered in answer to speeches of members of the reichstag in which light was demanded on the international situation.

Pending receipt on the president's answer to the latest German peace note the chancellor said: "We must tell our thoughts and actions prepare for two eventualities.

"First if the enemy governments are eager for war, we have no choice but to assume a posture of defense, with a people driven to the last extremities," he declared. "In that event I have no doubt but that the German government in the name of the German people will issue a call for national defense in the way it spoke for the people when it took action for peace.

"Regarding the second possibility, the German people must not be blindly brought to the peace conference. They have a right to ask what a peace on Wilson's terms will mean for our life in the future. Free expression with our opponents will decide what we think is right."

#### Co-operates With Allies.

Washington, Oct. 23.—President Wilson today was in communication

Continued on Page Eight

#### IS HAMPERING PRODUCTION

Washington, Oct. 23.—Declaring that peace talk is hampering the labor and production problems of the government, Chairman Baruch of the war industries board today called upon the nation to "think war, talk war and make war."

Peace, he said, "may be left to the president."

#### LOUISE KENNER SUCCUMBS

Expires From Acute Attack of Appendicitis.

Louise Kenner, age 24 years, died at the home of her parents, Mr. and Mrs. Charles V. Kenner, last night at 10:30 o'clock from an acute attack of appendicitis, which followed the Spanish influenza. The deceased is survived by her father, mother, one sister and three brothers. The funeral services will be public and will be held Thursday afternoon at 2:30 o'clock in the yard at the late residence, and burial will take place at East Hill.

#### SITUATION NOT IMPROVING HERE

Influenza Epidemic Seems as Bad, With Another Death and 30 New Cases Reported.

#### BAN LIKELY TO BE EXTENDED

Four Deaths in as Many Days and no Slackening of New Cases Indicates no Improvement.

With one more death reported today, together with thirty more cases, the Spanish influenza epidemic apparently was not improving in the least. Indications are now that the order prohibiting all public meetings will not be lifted next Saturday night as originally intended.

Health officers were not inclined to believe that the situation was improving in the least because new cases continue to be reported at about the same rate every day, and it is believed that many cases are being treated by physicians which are not reported on account of the physicians being so busy answering calls.

The death of Mrs. James Flicklin is the ninth death officially reported in this county to be due to the Spanish influenza. There has been a great increase in deaths this week, four having occurred in as many days, which really gives the epidemic a more serious aspect than it has ever had.

The death of Miss Louise Kenner last night cannot be attributed to the epidemic. Although she had been afflicted with influenza, the direct cause of her death was an acute attack of appendicitis, according to the attending physician. Her physical condition was such that an operation for appendicitis was out of the question.

Too much emphasis cannot be placed on the necessity of complying strictly with the order of the state board of health, preventing any public gatherings of any kind. The ban has been very well observed by social organizations until within the last few days, when there have been a few violations of the order, which have come to the attention of local health officers. If it becomes necessary, the health authorities will use their power to enforce the order.

The order of the state board of health will be extended officially at the meeting of the board Friday, unless there is a sudden dropping off of new cases today and tomorrow. No such change for the better is expected, however, and it is believed to be practically certain that the order will be extended regardless of the state board of health's action.

Many here are of the opinion that it would not be wise to permit public gatherings in Rush county regardless of what the state board of health does, be-

#### EFFORTS TO GET WORKMEN HERE PROBED

Unusual Tactics Of Connersville Furniture Co. Before State Council Of Defense

#### COMPLAINT MADE FROM HERE

Indiana Federal Labor Director Inform Concern It Can Not Conscription Labor

#### FURTHER INQUIRY IS LIKELY

Charles Fox Of State Council Is Authorized To Go Deeper In The Matter

It developed today that the efforts of the Connersville Furniture company to include Rushville furniture workers to work in its plant on war work, has been investigated by the state council of defense to determine who was responsible for such unwarranted efforts to take laboring men away from Rushville furniture factories.

One of the letters, which was received here last week by local furniture workers demanding that they return to their "former" employment with the Connersville furniture factory, was referred to M. E. Foley, chairman of the state council of defense, last Saturday and he immediately turned the matter over to the federal laborer director for Indiana, L. C. Huesman, for investigation.

It is said that the Connersville Furniture company was informed that it had no authority to demand that workmen take employment with the Connersville Furniture company that the

Connersville furniture company had the authority to order laboring men to return to work there because they had war contracts.

The laborer director then disclosed his identity and made it very plain that the Connersville concern was mistaken about its right in the matter.

The attitude of the state laborer director is exactly like the Rush-furniture manufacturers believed that it would be, because they knew that the method being used by the Connersville concern was nothing short of laboring conscription. Such a thing is illegal in the United States because there is no law giving any one authority to conscript labor.

This was also the position of Charles Fox, laborer representative on the state council of defense, when the protest from Rushville was formally laid before the state body yesterday.

The incident has not passed, however, as Mr. Fox was authorized by the council yesterday to take the matter up for a further investigation.

Mr. Fox was originally rejected by the board as physically disqualified for military service, but on his petition, the board reclassified him and placed him in limited service, which resulted in competent orders for his induction being received.

Karl Kennedy has accepted the offer for volunteer induction into the motor transport service, for which competent orders were received Monday, and will leave soon for Fort Sheridan, Ill.

The board received a bulletin to-

#### MARY PATTERSON IS DEAD

Mother Of Samuel Patterson Dies Of Heart Trouble

Mrs. Mary Elizabeth Patterson, age 76 years, the mother of Samuel Patterson of this city, died at her home in Indianapolis, Monday morning from a sudden attack of heart trouble. The death of the deceased, who was a former resident of this city comes as a great shock to her many friends and relatives. The funeral services were held today and burial will take place in Greenfield cemetery.

#### PRECAUTIONS TO PREVENT DISEASE

Legal Advisory Board Urges Registrants Not To Seek Advice If They Are Ill.

#### QUESTIONNAIRES MAILED

Competent Orders For Induction Of Denning Havens Into Quarter-masters Corps.

Results of the examinations of registrants yesterday and rulings of the district board will be found on page 3.

The first questionnaires were mailed today to registrants of September 12 under nineteen and over thirty-seven years of age, by the county army selection board. Today's group numbered 141 and included fourteen sent to registrants under nineteen years of age attending various colleges and will be inducted into the Student Army Training Corps.

As was the case when the first group of September 12 registrants received questionnaires, the legal advisory board today emphasized the necessity of consulting some member of the board as soon as possible so that all of the registrants not seek advice at the last moment and swamp the board.

However, Judge Will M. Sparks, chairman of the board, declared this morning that no registrant should seek the advice of the board if he were ill because every precaution must be taken to prevent the spread of the influenza. If registrants are sick and are unable to get assistance in filling out their questionnaires, the time limit for returning them will be extended by the board.

Each registrant has seven days from the time he received his questionnaire to return it, with all the questions answered, to the county army board. This is the rule which has been in effect ever since the questionnaire system has been used in classifying registrants.

The board has received competent orders for the voluntary induction of Denning Havens into the quarter-masters corps at New York City and he will leave next Tuesday to report for duty. Mr. Havens was originally rejected by the board as physically disqualified for military service, but on his petition, the board reclassified him and placed him in limited service, which resulted in competent orders for his induction being received.

Karl Kennedy has accepted the offer for volunteer induction into the motor transport service, for which competent orders were received Monday, and will leave soon for Fort Sheridan, Ill.

The board received a bulletin to-

#### ALLIES MOVE UP MILE ON A 5 MILE FRONT

Field Marshal Haig Reports New Drive Between Solesmes And Le Cateau This Morning.

#### AMERICANS WITH BRITISH

British Reach Important City Of Valenciennes, According To Paris Announcement.

#### YANKEES TAKE A VILLAGE

Patrols Enter Brieulles, Important Defense Point On The Meuse River, Today.

Paris, Oct. 23.—The British are in Valenciennes.

London, Oct. 23.—In Field Marshal Haig's new attack this morning between Solesmes and Le Cateau, the allies advanced a mile on a front of five to six miles, according to dispatches to the war office.

With the American Armies in France, Oct. 23.—Brieulles has been recaptured.

This important defense point on the Meuse was entered by American patrols today after the Germans had evacuated it.

The enemy following their withdrawal from the village, began shell-ing it vigorously.

#### Attack On 10-Mile Front

London, Oct. 23.—British and American troops attacked early today on the LeCateau-Solesmes front, Field Marshal Haig announced today. Good progress was reported. The attack was on a front of ten miles.

British have captured Bfuy on the west bank of the Scheldt, three miles northeast of Valenciennes.

British troops penetrated Valenciennes and news of its capture is expected momentarily.

#### French Gain On Serre Front

Paris, Oct. 23.—French troops gained slightly on the Serre front, the war office announced today.

The Germans prevented an attempt to cross the Serre at Souche. Along the Oise there was a lively artillery duel through the night.

#### Yanks Clean Out Forest.

London, Oct. 23.—In the face of stubborn resistance, American forces have cleaned up Bois de Fores, west of Brieulles, capturing seventy-five prisoners, many of them machine gunners, who fought to the last.

The fight on the Bois de Fores began a week ago, and has been one of the most stubborn since the beginning of the Meuse-Argonne offensive.

The Americans fought with determination. At times they fell back under terrific pressure, and then rushed forward with all their might.

On Monday they reached the line crossing the northern half of the wood, and completed their task Tuesday. Among the prisoners were several officers. The enemy clung to the wood with tenacity, because

the cleaning up of this place en-

# SPANISH INFLUENZA—JUST GRIP CAMOUFLAGED UNDER A NEW NAME

Most Authorities Now Agree That This Disease is Simply the Old-Fashioned Grip, the Same That Has Swept Over the World Times Without Number. Since 1831 the United States Has Had Five Epidemics.

The Last Epidemic in 1889-90 Came From Russia by Way of France and Was Given a French Name: La Grippe. This Time it Comes by Way of Spain.

## ORIGIN OF THE DISEASE.

Spanish Influenza, which appeared in Spain in May, has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C., which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831 this country has had five epidemics, the last in 1889-90.

## THE SYMPTOMS.

Grip, or influenza, as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsilitis, and frequently all the appearance of a severe head cold.

## THE TREATMENT.

Go to bed at the first symptoms—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Nature herself is the only "cure" for influenza and will throw off the attack if only you conserve your strength.

A little Quinine, Aspirin or Dover's Powder may be given by the physician's directions to allay the aching. Always call a doctor, since the chief danger of grip is in its weakening effect on the system, which allows complications to develop. These are chiefly pneumonia, and bronchitis, sometimes inflammation of the middle ear, or heart afflictions. For these reasons, it is very important that the patient remain in bed until his strength returns; stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days or more, according to the severity of the attack.

## EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grip germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then VapoRub should be rubbed in over the parts until the skin is red, spread on quickly and

covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck as the heat of the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates the skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

## NO OCCASION FOR PANIC.

There is no occasion for panic—influenza or grip has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally patients in a run down condition—those who don't go to bed soon enough or those who get up too early.

## HOW TO AVOID THE DISEASE.

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds—which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food.

## KEEP FREE FROM COLDS.

Above all avoid colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs.

Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary teakettle. Fill half-full of boiling water, put in a half teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

**NOTE**—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Camphor, with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors. VapoRub can be had in three sizes at all druggists. While comparatively new in certain parts of the North, it is the standard home remedy in the South and West for all forms of cold troubles—over six million jars were sold last year. VapoRub is particularly recommended for children's croup or colds, as it is externally applied and can, therefore, be used freely and often without the slightest harmful effects.

## URGENT CALL FOR STUDENT NURSES

In Centralized War Activities Are Countless Cases Of Influenza Uncared For.

INDIANA'S QUOTA IS 1,500

Student Nurses Expected To Qualify To Relieve Some Of More Experienced Nurses

The Indiana State Council of Defense today authorizes the following: It is high time that able bodied, intelligent young women between 19 and 35 recognize their duty and proceed at once to do it. The call for student nurses cannot be more emphatic or more insistent than it is today.

In every training camp, vocational school, or other centralized war activity, there are countless cases of influenza that threaten to deplete the fighting and working forces of the nation. These men can all be spared. Nurses, and the proper medical attention that may be guaranteed only through competent nursing, are the sole hope of saving them.

In highly congested centers of civil populations, in war plants and among men and women elsewhere upon whom a proportion of the war burden must fall, conditions are so serious that the health authorities have forbidden the commonest practices of intermingling from fear of further spread of the disease.

Influenza can and will be checked but it is at the terrible cost and waste of the medical and nursing forces left at home after the big demands from overseas have been partially supplied.

Indiana has been asked to register 1,500 young women for student nursing. They are expected to qualify to relieve some of the more experienced nurses wanted for more exacting work than keeping up routine requirements in civil and military hospitals. To date less than 1,000 or this number have responded:

Many of the young women wearing service pins for a distant relative—or even for one who later may become a close relative—may find the associations of after years far more satisfying if they leave the knitting and making of gaunce bandages to their elders or the younger girls, and they themselves take up the work now begging.

TAX ON HEROISM IS REMOVED BY FRENCH

(By United Press)

Paris, Sept. 30.—(By Mail) Although the cost of living continues to soar, the high cost of becoming a hero has taken a sudden slump. Premier Clemenceau issued an order that the States henceforth will bear the cost of the medals conferred upon heroes, and furthermore refund to soldiers money paid since the beginning of the war for their medals. Originally, soldiers were charged about two dollars for their medals, then in November, 1917, the price was raised slightly owing to the increased cost of ribbon. Last January the price was boosted again to about \$2.50.

There was never a time when the sacrifices and the help of women were more appreciated than at the present time. Women should learn war-nursing and nursing at home. There is no better way than to study the new edition of the "Common Sense Medical Adviser"—with chapters on First Aid, Bandaging, Anatomy, Hygiene, care of the Sick, Diseases of Women, Mother and Babe, the Marriage Relations—to be had at some drug-stores or send 50c to Publisher, 654 Washington Street, Buffalo, N. Y.

If a woman suffers from weak back, nervousness or dizziness—if pains afflict her, the best tonic and corrective is one made up of native herbs and made without alcohol, which makes weak women strong and sick women well. It is the prescription of Dr. Pierce, used by him in active practice many years and now sold by almost every druggist in the liquid or in tablets. Send Dr. Pierce, Buffalo, N. Y., 10c for trial pkg. Dr. Pierce's Pleasant Pellets are also best for liver and bowel trouble.

Laporte, Ind.—"When approaching middle life I suffered severely. I never had a fever except once, and of的女人 weakness and I was very much afraid that it would go hard with me but one bottle of Dr. Pierce's Favorite Prescription completely removed my pains and the critical time passed so easily that I was scarcely conscious of it. It is fifteen years since I took that one bottle of "Favorite Prescription" and I am just as strong and well as I can be. I have not had a bad spell since then, and I can say that I have had a most wonderful medicine for women and would advise its use by all women at the critical time of life."

Mrs. S. J. Baker, 919 Scott St.

STICK TO SENRECO AND YOUR TEETH WILL STICK TO YOU

THOUSANDS DAILY JOIN SENRECO FAMILY

TEETH BECOME WHITE, CLEAN AND FASCINATING IN FEW DAYS—GUMS FIRM AND HEALTHY

Dealers Amazed at Fast Growing Popularity of Remarkable Dentifrice

Senreco is a dentist's formula, a combination so perfect that, besides being the finest cleaner of teeth, and the most enjoyable of dentrifices, it is an active enemy of the vicious germs of pyorrhœa—that all too common and abhorrent disease that attacks the gums and causes them to bleed, recede and grow soft, tender and spongy.

You can have white teeth so radiantly clean and fascinating that they will compel unstinted admiration. You can have firm healthy gums with no taint of disease if you will only visit your dentist occasionally and use Senreco toothpaste every day.

## APPLES

I will have on the tracks at Rushville and Arlington New York Apples in barrels. This is a good picked and sprayed fruit. Good Eaters, Cookers and Keepers. Now is the time to lay in the winter's supply at reasonable price. These apples will be in about October 30th.

## THERE'S WORK EVERY DAY ON ANY FARM for the

## MOLINE UNIVERSAL TRACTOR

It Solves The Farm Help Problem

You can make more money with the Moline-Universal than any other tractor because it can be kept at productive work more days a year—no matter how large or small your farm or what crops you grow. This is because the Moline-Universal is built to fit the farm and every operation on the farm. It is not limited to a few operations, nor to certain classes of work.

The Moline-Universal will do anything any other tractor will do and in addition an infinite variety of work impossible for any other tractor. You can find work for it every day in the year. If for no other reason than the fact that the Moline-Universal will do more and better work and can be kept busier than any other tractor, it is your best buy.

But the greatest advantage of the Moline-Universal is that one man controls both tractor and implement in all operations. You sit on the seat of the implement, where you must sit in order to do good work, and control the entire outfit. This means that you can farm more land than was ever before possible, with either horse or tractor.

From a mechanical standpoint, the Moline-Universal Tractor measures up to the very limit of modern engineering knowledge. Perfected overhead-valve four cylinder engine, complete enclosure of all working parts, electric starting and lighting system with electrical engine governor, and differential lock are only a few of the many improved features. It will pay you to stop and examine this latest model of all tractors the next time you are in town.

### Personal Pictures

Sheriff E. M. Jones spent the morning in Arlington, on business.

Dr. R. O. Kennedy of Milroy, was a business visitor in Indianapolis, this morning.

Frank Donnell of Greensburg was a business visitor in this city yesterday afternoon.

James Comella of Springfield, Ohio, is here visiting his brother, Frank Comella, and family.

Mrs. N. W. Barnes of Chicago is visiting her parents, Mr. and Mrs. George W. Osborne in North Harrison street.

Miss Belle Kerr, formerly of this city, has returned to her home in Knoxville, Tenn., where she is a teacher in Knoxville college, after visiting friends here for a few days.

Miss Helen Scott and Miss Genevieve Brown, returned to their home this morning in Winamac, Indiana, after spending a few days in this city as the guests of Miss Henrietta Coleman.

Miss Lena Beale of Indianapolis, who has been the guest of relatives in this city, went back to her home this morning to resume her work as assistant depositor of the Fletcher Bank.

Whitelaw Spurrier of Princeton, Ill., and Lowell Spurrier of Chicago, have been called here by the death of their brother-in-law, James Swihart, who died of Spanish influenza at Fort Thomas, Ky., and whose funeral will take place here.

Charles Frank, who was ill with the Spanish influenza, has suffered a relapse and is very ill.

Mrs. Will Bowen is suffering with an attack of Spanish influenza at her home in North Morgan street.

The partition suit of Elbert E. Scovell against Ezra B. Scovell et al., has reached the Rush circuit court on a charge of venue from Henry county.

Mrs. Charles B. Wilson has received word that Frank Chapman Wilson, who is in training at Camp Dix, N. J., has been promoted to become a second lieutenant. Wilson has visited here and is known by a number of people.

Word has been received by relatives here that Chase Brooks has been advanced to the rank of sergeant at Camp Merritt, New Jersey, where he is stationed. Sgt. Brooks was inducted into the service on a limited service call here and was sent to Syracuse, New York.

The body of James Swihart, who died of influenza at Fort Thomas, Ky., was to arrive here at 4:42 this afternoon over the C. I. & W. and be taken to the home of his father-in-law, John A. Spurrier. Short funeral services will be held at the grave in East Hill cemetery tomorrow afternoon at 2:30 o'clock.

Charles O. Warfel, formerly of this city, has been advanced to the rank of major at Camp Taylor, Ky.

according to word received by friends here. He resigned as superintendent of the I. & C. Traction Co., in the summer of 1917 and entered the first officers training camp at Fort Harrison, where he was commissioned a captain.

Reba Miller has recovered from an attack of the influenza.

Miss Katherine McKee of East eighth street, is ill at her home with the Spanish influenza.

Dr. J. T. Paxton, who has been ill at his home with the Spanish influenza, is able to resume his work.

### YIELD \$69 FOR RED CROSS

D. M. Perry of Falmouth, one of the oldest hog raisers in the country, had a sale yesterday which totalled \$4,500, in which 58 head of hogs averaged \$81.12. The highest price paid for one hog was \$147.50.

E. J. Piper and sons contributed to the Red Cross one wagon load of corn, suitable for seed, which was sold at the sale once, bringing \$49.50. Also a bushel of apples was donated for the same purpose by Wilbur Chance, a grocer in Falmouth, which brought, \$39.50, being sold only once. Mr. Perry willingly gave the Red Cross one of his best young Jersey gilts, which brought \$60.00, making the total for the Red Cross \$169.

War Garden Lessons.

American gardeners this year cultivated 5,285,000 individual plots of ground. The National War Garden Commission estimates the value of foodstuffs produced at \$25,000,000. And this by no means represents the full possibilities of war gardening. For many who might have done so did not cultivate gardens this year, an omission they ought to remedy in 1919.

War gardens have helped in countless instances to reduce the living expenses and to aid families in saving money for other than table uses. And the physical exercise in the open air has not, so far as reported, resulted in any fatalities. So long as the war lasts the war garden will undoubtedly increase both in value and popularity. The danger is that

Germany is whipped many will abandon the hoe. To do so will be a great mistake, as great an error in peace as in war.

The war garden ought to become a permanent institution in American life. It will help not only this but succeeding generations to pay the cost of the salvation of human liberty.

Under a single roof, the Knights of Columbus and the Jewish Welfare Board are conducting their activi-

ties at Camp Greene, Charlotte, N. C. A huge placard covers the side of the building and announces—"Everybody Welcome. Knights of Columbus—Jewish Welfare Board." This is one single instance of the widespread co-operation in the field between welfare agencies of differing religious denominations that is a huge factor in the success of the Jewish Welfare Board.

**Now Is Time To Get Coal**

The domestic coal problem for Indiana will be solved if twenty percent more of the households will at once get in their winter's supply. The United States Fuel Administration for Indiana insists that it is necessary, if the state is to go into the winter feeling secure, to increase the household storage during the next thirty days.

Every effort is being made to prevent the possibility of the forced close down of industrial plants during the extreme weather of the winter. The fuel administration points to the fact that industrial storage at this time is pretty much limited to plants having war contracts and to public utilities. The so-called non-essential factories are now dependent and will be dependent during the winter on the current mine production and if the household demands of the state are so heavy that they make serious inroads on the current production, industrial plants will have to suffer and as a result of their closing down or cutting down operations working people will feel the effects in their pay envelopes.

There has been a greater storage of domestic coal in Indiana than ever before but the fuel authorities insist that it lacks somewhat of being enough to remove all anxiety from the situation. Consequently those who have failed to buy coal should get busy at once and see to it that they are protected against their winter demands.

The fuel administration does not deny that the anthracite situation is most unsatisfactory and uncertain. It is advising every one who can possibly do so, to protect themselves with bituminous coal or wood because it can not, at this time, give

American relief committee starts census of needy Belgians.

positive assurance that anthracite coal will be had in any community. It is doing it utmost to accelerate shipments from the anthracite fields but results, thus far, do not justify any one in holding back in the hope of obtaining their full requirements of anthracite.

"Play safe and buy your bituminous coal or wood now," is the reply the fuel administration is making to all inquiries regarding the winter prospects.

**With The French Workers.**

Women and girls of all ages and all classes come together in the Y. W. C. A. foyers for munition workers in France. Many of them are from the North. The men come from all neutral nations, many of them from Northern Africa and the East. Eleven of these foyers have been opened in France—at Lyons, St. Etienne, Bourges and other factory centres. They provide a home-like place for the workers in their free time. Where a cafeteria is needed, it has been included in the work.

There are at present 3,200 Americans under arms, and the American Library Association has distributed among them nearly 4,000,000 books, of which 3,200,000 have been given by the people all over the country, and about 600,000 purchased, the latter mostly technical and scientific books. Besides this war library of more than one book to each man in the army, more than 5,000,000 magazines have been distributed among the men.

And now suffragists are picketing the Senate. President Wilson doubtless offers the senators his hearty condolences.

Secretary McAdoo has time to run the Treasury and the railroads and speak for the Fourth Liberty Loan too. Where did the gentleman find so much more time than the rest of us have had?

Spain might have kept her influenza to herself. Perhaps she would have been less generous in that case, but she would have been far kinder.

It is stated that at the beginning of the war the women of America were carrying about 30,000 tons of steel in their corsets. Could this be characterized as a corset waste.

**HEARS FROM HIS SON AFTER FOUR MONTHS**

James Tarplee Gets Letter After Having Asked American Red Cross In Paris To Investigate

**WAS BUSY FOLLOWING HUNS**

James Tarplee was considerably relieved when he received a letter from his son Sergt. Arnold G. Tarplee, 2nd supply train, headquarters detachment, quartermaster corp, 2nd division, A. E. F. Mr. Tarplee had had no word from his son for four months and fearing that he had either been taken prisoner or killed in action, addressed an inquiry to the American Red Cross in Paris three weeks ago. The letter which he has just received was not the result, however, of the investigation started by the Red Cross, because it was written September 16.

Sergt. Tarplee explained that he had not written sooner because he had been so busy, constantly moving forward in the wake of the retreating Germans. Sergt. Tarplee is in charge of a motor truck corp, engaged in the transportation of ammunition, and is constantly on the move, especially during such rapid advances as have been made by the allies in the last few months.

Moving every other day and sleeping in the mud is bad enough," says Sergt. Tarplee, "but still it is not as bad as you might expect."

**ALLOWS EMPLOYEES 4 HOURS TO VOTE**

State Law Gives Them Such Period

Of Time To Exercise Their Franchise

**STATE DEFENSE BODY MEETS**

**Chairman Authorized To Issue A Proclamation—Curtailment Of Improvements**

Indianapolis, Ind., Oct. 23.—After discussing a resolution which urged employers to extend four hours to employees for voting, on the approaching day, the Indiana State Council of Defense at its weekly meeting yesterday authorized the chairman to issue a proclamation calling attention to the state law which grants employees such period of time, if necessary, for voting, and urging that every citizen exercise his right to vote and that employers cooperate with employees in securing everyone protection in this right.

Following the adoption of the report of the Committee on Proposed Construction, A. W. Brady reported his experiences in conference with the officers of the Priorities Division of the War Industries Board, at Washington, to the meeting of the Indiana State Council of Defense, October 22.

Mr. Brady conveyed the information to the council that the Division has evidence to prove the absolute necessity of curtailing where possible, every expenditure for improvements. He said figures show a dearth of material and a lack of labor, "which present a situation that will be difficult to meet". The labor shortage is estimated at 130,000 skilled and 60,000 unskilled in plants engaged in war work and that estimates indicate it is likely to be between 1,000,000 and 1,200,000. Attention was called to the action of the educational officials of the city of New York, where a \$5,000,000 school building extension was deferred until the close of the war.

Mr. Brady said the Division had approved of the Indiana State Council of Defense's endorsement of the Little Blue River and Scott county ditch drainage projects insofar as they will reclaim land that will be available for increased crop production next year. Beyond this point further authorization will be necessary, he said. Buildings under way may be continued.

A report from George Ade recommended that the council not attempt any supervision of the showing of motion pictures, about which complaint had been registered with the council, particularly as to those which were said to "incite race prejudices," was approved.

**LOCAL EGG MARKET IS VERY UNSETTLED**

They Are So Scarce That Price Fixing Committee Did Not Fix Any Price This Week.

**MARKET WILL GET BETTER**

On account of the unsettled condition of the egg market, the price fixing committee of the county food administration, this week, did not attempt to fix either a wholesale or retail price of eggs. Dealers say that they are especially scarce just at this time and that it is with great difficulty that customers are being supplied even with a minimum amount. In some instances, local grocers have bought eggs at the poultry house to fill orders this week, which indicates how few there have been on the market.

One farmer reported to a local dealer that he received 48 cents a dozen at the door from a buckster. It is expected, however, that the market will soon become more settled and that it will be possible again to fix the price of eggs.

A soup containing vegetables, grain, and a bit of American beef proves, after careful experimenting by the A. R. C., just right to suit the growing, half-starved children of Italy.

ARMED HAVE LUCKY PIECES FOR FLYING

(By United Press)

London, Oct. 3. (By Mail)—It is an established practice among airmen to carry mascots and charms or keepsakes.

There is an English boy who never goes up without a scrap of brightly colored cloth from "Somebody's dress, and many a combat pilot who looks absolutely immune from such little weaknesses will not go up without a dice, a bit of jade, a halfpenny with a hole in the middle, a white mouse—anything serves, if it is suspected of a potency that will avert the dreaded "crash" and that heart-chilling official announcement—'One of our machines failed to return.'

**Constipation Emaciation**

This Word Brought From Washington by Harry E. Barnard, Food Administrator

**ATTENDS FOOD CONFERENCE**

Enforcement of the New Conservation Program, Effective Oct. 21 is Planned

"The American people have taught themselves new habits in their relation to food, now they must teach themselves to abstain from much of the food to which they have become accustomed."

This is the official word brought from Washington by Dr. Harry E. Barnard, federal food administrator

for Indiana, who attended a conference with other state food officials, and Herbert C. Hoover, in anticipation of the enforcement of the new conservation program, which becomes effective October 21st.

"Our new program is not only

**INCREASE BABY'S STRENGTH**

Everybody loves a baby and everybody wants a baby abundantly robust. There are many young children to whom

more difficult, it is more important than those which called for meatless and wheatless meals and days. It

abandons the policy of asking for definite sacrifices and more insistently calls for a continuing sacrifice of

at least one-half of the food stuffs to which we have been accustomed.

Everyone will be expected to eat enough, no more, but particularly to eliminate waste and abandon all

wasteful practices as rigidly as they

save money with which to buy thrift stamps and liberty bonds.

Mr. Hoover's message to Indiana, Dr. Barnard stated, is that the nation's progress in ship building has not been in keeping with the tremendously increased and increasing demands that have been made for ships and tonnage. The requirements for food to sustain our vastly increased army in France have prevented the accumulation of a surplus in America and have to add to the danger of our being unable to meet our agreements to ship food to

**SCOTT'S EMULSION**

given in small portions at intervals during each day, would be an important factor in overcoming malnutrition and starting them well on the road to robustness. Every drop of Scott's is pure, rich nourishment, the kind that builds strength and promotes healthy growth.

*Children Thrive on Scott's*  
Scott & Bowie, Bloomfield, N.J. 18-15

**SAVE SUGAR BY USING**

None On Fruits

None On Deserts

Less In Cereals

Less In Coffee and Tea

Less In Preserving

Less In Cakes And Candy

Use Other Sweeteners

Use Less Than Two Pounds

Per Person Per Month

HELP FEED THE ALIES

the citizens in friendly and neutral countries.

Only the bare necessities will be imported, the food administrator announces, and these will be brought in in old fashioned sailing ships, much after the style of a hundred years ago. Sugar and coffee will be lifted and the consumption of the former will be the only definite restriction that will be enforced, and this will be continued on the basis of two pounds per capita per month.

Our associates in the war, on continental Europe, will receive through the United States food administration their entire sugar supply, and this will involve even closer scrutiny of distribution and supply in America. The fact that coffee will be difficult to secure will serve to emphasize, also the importance of not wasting it.

"Our new food card" concluded Dr. Barnard, "means we must reduce the amount of bread we have been eating; we must do without much of the beef and pork and fats that we have considered necessary for our well being. We must make very definite reductions in the amount of sugar we have required, and this may indeed be recognized as more difficult than the former voluntary sacrifices we have made. I bring the word from Mr. Hoover, "This is the hour of our greatest trial in feeding a starving world, and it will take all of our ingenuity, all of our resourcefulness, all of our patriotism and sympathy for the stricken peoples of Europe, to turn the trick; but I know he was right when he said we will do it. Indiana will do her part, as she has been doing, and will step forward in support of the conservation program as she has in all war activity."

**TO SAVE MEAT**

A serving of meat or poultry once a day is enough.

No family of five should buy any meat until it has bought 3 quarts of milk.

Use all left overs. Make soups.

When you buy meat get the lighter cuts which do not keep so well for shipment abroad.

Remember there are parts like livers, hearts, tripe, sweetbreads and brains which should be used.

Make a little meat go a long way. "Extend" its flavor. Other things such as vegetables, (especially potatoes) can be combined with meat.

**IF BACK HURTS BEGIN ON SALTS**

Flush the Kidneys at once when Back-achy or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggish filter or strain only parts of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in the body, so as to lessen irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia-water drink which all renal and urinary troubles should take. Then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## TOWNSHIP CHAIRMEN ARE URGED TO ATTEND

Letter Addressed To Each Asking Them To Be Present At United War Work Conference,

**FRIDAY AFTERNOON AT 2:30**

T. M. Green who, by reason of being chairman of the county council of defense, is head of the county war activities body, has addressed a personal letter to every township chairman in the county urging their attendance, as well as the attendance of as many workers as possible, at the conference to be held here Friday afternoon at two o'clock in the sheriff's office with Frank Donnell, of Greensburg, district chairman.

The conference is essential because it will mark the beginning of the campaign to raise Rush county's quota of \$44,000 on the United War Work fund.

The same organization that has successfully conducted former drives for patriotic purposes, will be in charge this time, with the exception that the workers in some instances will be different.

A letter was not addressed to each of the twenty-five sectional chairmen in Rushville township, but it is especially requested that they be present. Dr. J. N. Hurty, secretary of the state board of health, has granted permission to hold such conferences as the one which will take place here.

### PRECAUTIONS TO PREVENT DISEASE.

Continued from Page One day which stated that Texas was the only state in the nation which was ahead of Indiana on the small percent of registrants rejected at canteens because of physical disabilities.

The physical examinations yesterday resulted in eight registrants being held for general military service and six being rejected. Two others were rejected and sent to the medical advisory board for further examination. Ben F. Caldwell's examination was transferred to Philadelphia and Charles R. Abernathy's to Nitro, West Virginia. Luther Ramey was unable to appear before the board on account of sickness.

According to the poet Tasso, carrier pigeons were employed for the transmission of messages during the siege of Jerusalem in the year 1099.

## What our prices save you should be put into War Savings Stamps

A combination of merchandising foresightedness enables us to save you considerable money in your coat and suit buying this fall.

It's just this—we placed our orders very early with makers who had long ago laid in great reserve stocks of materials, both of us thus avoiding many of the heavy price advances that are now figured into the selling prices you are confronted with elsewhere.

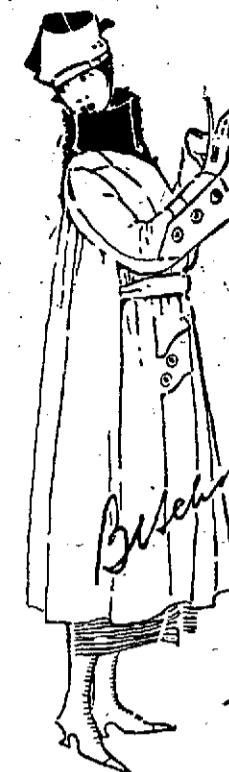

Grant that elsewhere prices—because of their greater prevalence—are standards of value today. Ours, then, are better than standard.

Grant, too, that you are able and willing to buy on the basis of prevailing values. Good! Set your limit, buy here for less, and invest the difference in War Savings Stamps!

*That will be good financing for the Stamps will earn interest; effective patriotism for the money put into Stamps means more punch in the fighting abroad, a quicker return and fewer casualties.*

You will find another advantage here—style. Our makers are big—so big they have their own style-correspondents abroad and employ the highest paid designers in this country—men and women who create styles that serve as models for others to copy or adapt.

*Considering the times our assortment is unusually extensive. We can please you in point of simplicity or gayety—we can meet the lean purse or the opulent.*

## SUIT TO TEST THE COMMISSION LAW

Case Involving Constitutionality of  
State Statute Is Sent Here  
For Trial

**COMES FROM SHELBYVILLE**

Natural Gas, Oil & Water Company  
is Refused Permission to Con-  
struct a Plant

A suit to test the constitutionality of the law creating the state public service commission, which was filed in the Shelby circuit court by the Citizens Natural Gas, Oil & Water company of Shelbyville against the commission, will be tried here as it has been sent to the Rush circuit court on charge of venue. At the same time the motion for a change of venue was filed, the defendants filed a demurrer to the complaint. The real purpose of the suit is to set aside an order of the commission preventing the construction of a gas plant in Shelbyville.

In filing the motion for the change of venue from Shelby county, the defendant alleges that it could not secure a fair and impartial trial in Shelby county.

In the demurrer the defendant states that the court does not have any jurisdiction in the case and that the complaint does not set out facts sufficient to constitute a cause for suit. Further statement is made that the plaintiff failed to apply for a rehearing before the commission after the decision was given and that the commission acted within authority conferred on it by law in refusing the permission for the construction of an artificial gas plant here.

The demurrer in passing on the part of the plaintiff's suit, stating that the Public Service Commission act is unconstitutional, states that this averment is but an erroneous statement of the law and is not supported by any fact. The demurrer further alleges that although the Citizens' Natural Gas, Oil & Water Co. was granted a franchise by the city council of Shelbyville on March 17, 1891, to supply artificial gas to the residents here, at the same time, inasmuch as the plaintiff has not attempted to exercise the right during the past twenty-one years, it has therefore abandoned such claim.

### ALLIES MOVE UP A MILE ON 5-MILE FRONT

Continued from Page One  
angers the commanding positions of the Germans to the north.

Standing behind the Seheld river, the Germans for the moment at least, have stabilized their line and the swift advance of the Belgians, British and French has been slowed down.

Miss Myrtle Dust, of Alpena, Mich., is the first woman patrol on the Great Lakes.

## SOUNDS THE G.O.P. KEYNOTE

Gov. Goodrich Says Republicans  
Support War Consistently.

(By United Press)

Indianapolis, Ind., Oct. 23.—Gov. Goodrich in a statement issued today sounded the keynote for the republican party in the coming campaign in Indiana.

The statement reviews the charges by democratic leaders, giving particular attention to the speech made by Evan B. Stotsenberg, democratic candidate for attorney general, in opening the democratic campaign. Republicans in congress have backed the war program more consistently than the democrats, the governor declared.

### Significance Is Attached to March's Visit at White House

Continued from Page One  
with allied governments on questions involved in the disposal of the latest German move for peace.

When he determines upon a course of action, which is expected now without much more delay, it will be in close co-operation with our associates in the war.

The German peace note was delivered to Secretary Lansing at ten o'clock this morning. The official text showed that it was substantially the same as that sent out by German wireless.

It was explained by a cabinet member today that the "official version" has now replaced the state department and it is now necessary to discuss with our associates in the war, questions relative to next step in negotiations. He stated no fruits of our sacrifices in this war will even be risked by President Wilson.

The main point of discussion hinges on Germany's alleged constitutional reforms. While widely at variance on the question of Germany's sincerity, officials are practically unanimous on one point, that Germany must go much further than that she has in amending the constitution before she can satisfy the world that autoocracy has been shorn of its power.

### SITUATION IS NOT IMPROVING HERE.

Continued from Page One  
cause the epidemic seems to be as bad as it ever was.

The Big Four barber shop was closed because Allen Daniel, the owner, and all of the barbers employed there have been afflicted with the malady. There are many patients in bad condition, some of them critical. The lack of nurses makes it next to impossible to care for many of the patients properly. Very few of the volunteer nurses recently enrolled by the Red Cross will assist because of the nature of the disease. Other volunteer Red Cross workers have been assisting materially, however, by preparing food and taking it to the home of the afflicted.

### EXPIRES FROM INFLUENZA

Mrs. Clara Flicklin, age 28 years, the wife of James F. Flicklin, died at her home last evening about 4:40 o'clock from an attack of the influenza. She leaves a husband and three children, father, mother and one sister. No arrangements have been made for the funeral.

### TO ADD 200,000 TO NAVY

Washington, Oct. 23.—Two hundred thousand officers and men will be added to the navy during the next year to man new ships, bringing the total naval man power to slightly more than 700,000, Secretary of the Navy Daniels told the house naval affairs committee today.

## Justifiable Vanity

Every man likes to meet a friend who says: "That's a good looking suit you have on!"

And yet the same man will deny the statement that he has a touch of vanity in his make up.

One likes to look young as long as possible and to feel that his neighbor thinks he looks young. His mirror is his father confessor.

This is what we call "justifiable vanity" in man—just as it is in woman.

In their style and carefully selected fabrics, their skillful tailoring and easy fit, Roberts-Wicks Clothes present a marked difference from any other ready-to-wear clothes.

Fall and Winter Suits and Overcoats  
\$25 to \$40.
